STREET IMPROVEMENTS

Parsonage Street

In an ongoing effort to maintain village streets, the Village of Saranac has scheduled the reconstruction of Parsonage Street, from Summit Street to the south village limits.

The approximate start date for the project is Monday, September 23rd, with substantial completion on or before Friday, October 18th. Final completion (seeding & lawn restoration) may vary, dependent upon weather.

Our goal is to maintain one lane of traffic throughout the project.

Driveway approaches will be removed and replaced as part of the project. Prior to work on a driveway approach where access may be limited, village or construction personnel will contact you directly. Otherwise, access will be maintained with temporary gravel ramps. Replacement of concrete driveway approaches will require a 5-day closure, to allow the concrete to cure. During this time, you will be asked to make alternate parking arrangements.

Utilities are not being replaced as part of this project. You should not experience an interruption in your water or sewer service.

We thank you in advance for your patience and understanding, as we continually strive to improve and maintain the quality of village streets.
