

**\*\*\* NOTICE \*\*\***

**STREET IMPROVEMENTS**

**MAIN STREET**

In our ongoing efforts to maintain Village streets, we have scheduled improvements to Main Street, from Bridge Street to the east Village limits. The improvements include hot mix asphalt cold milling and paving, concrete curb and gutter, sidewalk, curb ramps and pavement markings.

The project is scheduled to begin Tuesday, September 3<sup>rd</sup> with substantial completion by Friday, September 27<sup>th</sup>.

The street will be closed to thru traffic (other than emergency vehicles) during the entire project. Residents of Main Street will have access in/out at all times. However, "on-street" parking will not be allowed, for the duration of the project.

The Village and Contractor will coordinate efforts with Granger, to ensure that your refuse/recycling is picked up on Thursdays as usual. Some weeks it may be picked up at the end of your driveway. Some weeks it may be picked up at a designated location at the end of the street, in which case the Village and Contractor will pick up and replace your carts for you.

We thank you in advance for your patience and understanding. We continually strive to improve and maintain the quality of Village streets on your behalf.
